Employee Payroll Summary

Fictional 20-employee payroll snapshot. Amounts use Nigerian Naira; bonus eligibility and deductions are formula driven.

Employees	Gross Salary	Bonuses	Net Pay
20	₦2,895,000.00	₦216,000.00	₦2,966,250.00

Payroll by Department

Department	Employees	Net Pay
Sales	6	₦884,650.00
Operations	5	₦729,350.00
Finance	4	₦821,100.00
Human Resources	2	₦260,400.00
Customer Service	3	₦270,750.00

Payroll Notes

Net pay = basic salary + eligible bonus − estimated tax. The sample uses a simple 5% tax assumption and a 10% bonus for employees with salary of at least ₦100,000 and attendance of 90% or higher. Replace assumptions with approved payroll rules before real use.

Employee-level payroll details

Employee ID	Employee	Department	Basic Salary	Attendance	Tax	Bonus	Net Pay

Student Attendance and Performance Dashboard

Practice view for 50 fictional records. One duplicate ID and one blank name demonstrate quality alerts. Counts use the selected attendance date.

Selected Date: 08-Nov-2026

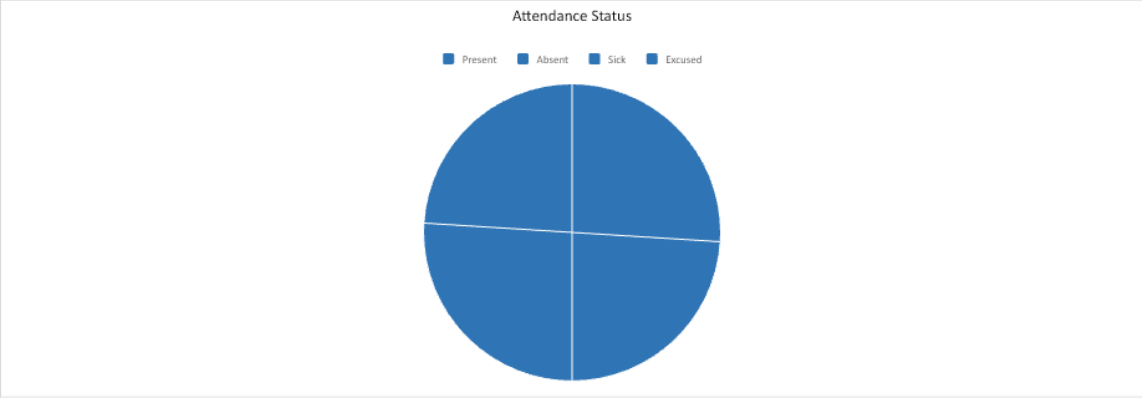

Total Students	Present on Selected Date	Absent on Selected Date	Average Score	Highest Score	Lowest Score
50	13	12	68.1	99	40

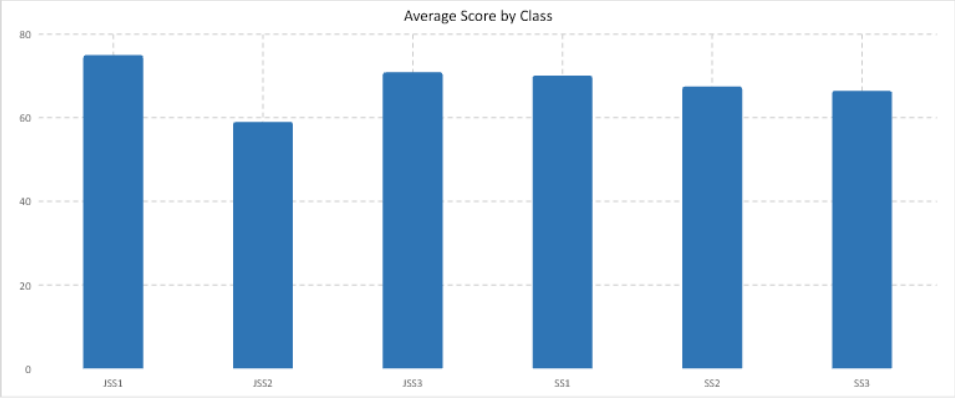

Attendance by Status

Status	Students
Present	13
Absent	12
Sick	13
Excused	12

Average Score by Class

Class	Average Score
JSS1	75
JSS2	59
JSS3	70.875
SS1	70.1
SS2	67.5
SS3	66.42857143

Attention Items

Flag	Rule	Next step
Low score	Score below 40	Review learning support for the student
Low attendance	Attendance below 75%	Follow up with the student or guardian
Duplicate ID	Student ID appears more than once	Check the ID before reporting
Missing data	One or more required fields are blank	Complete the student details

Michael Hospital Dashboard

Illustrative dashboard from synthetic patient records. Bills above ₦100,000 are highlighted in the source sheet.

Patients	Revenue	Average Age	Highest Bill	Lowest Bill
100	₦13,392,106.00	51.3	₦244,832.00	₦26,471.00

Patients by Gender

Gender	Patients
Female	53
Male	47

Patients by Diagnosis

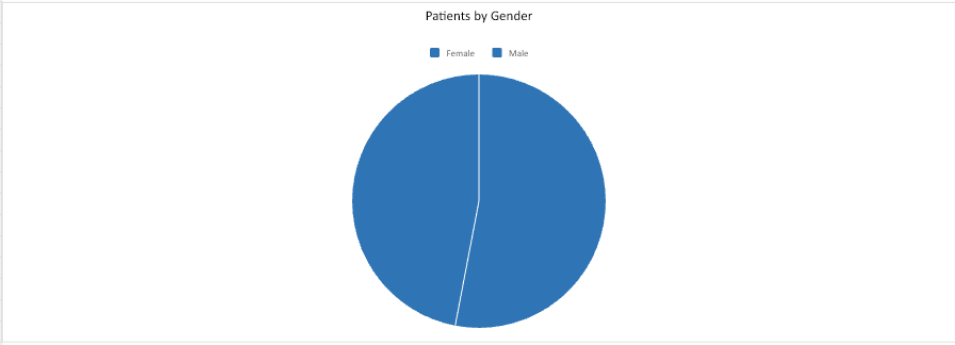

Diagnosis	Patients
Malaria	16
Typhoid	17
Hypertension	27
Respiratory Infection	14
Gastroenteritis	14
Diabetes	12

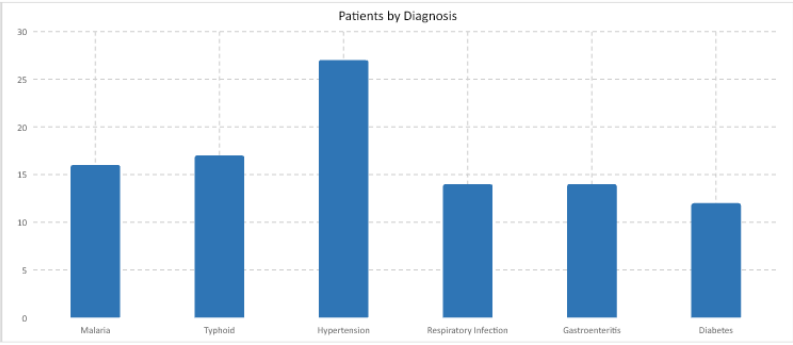

Revenue by Month

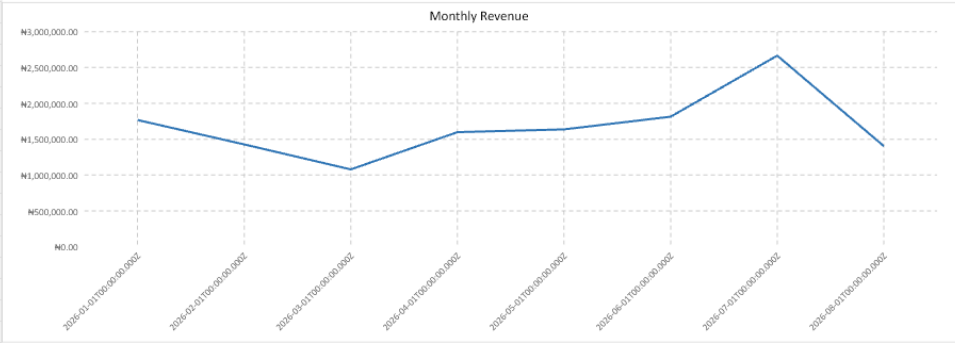

Month	Revenue
Jan	₦1,767,775.00
Feb	₦1,427,572.00
Mar	₦1,078,901.00
Apr	₦1,598,390.00
May	₦1,636,950.00
Jun	₦1,813,931.00
Jul	₦2,665,503.00
Aug	₦1,403,084.00

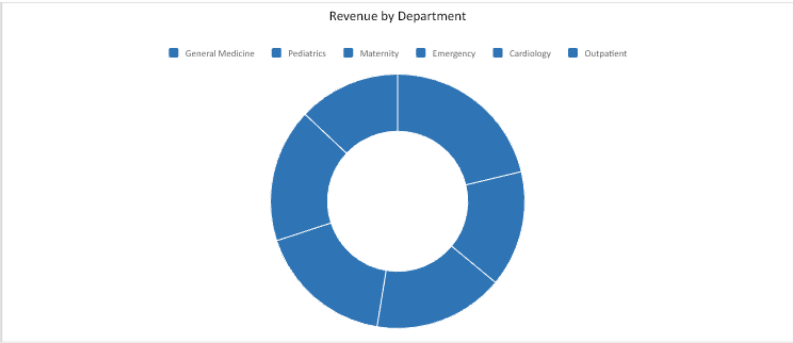

Revenue by Department

Department	Revenue
General Medicine	₦2,845,541.00
Pediatrics	₦1,979,373.00
Maternity	₦2,219,183.00
Emergency	₦2,328,378.00
Cardiology	₦2,279,889.00
Outpatient	₦1,739,742.00

Findings and Recommendations

Finding	Value	Interpretation
Most common diagnosis	Hypertension	Review capacity and prevention needs for the most frequent diagnosis.
Highest revenue departmen	General Medicine	Compare staffing and service costs before reallocating resources.
Bills over ₦100,000	64	Review billing detail and payment support for high-bill cases.

Recommendations

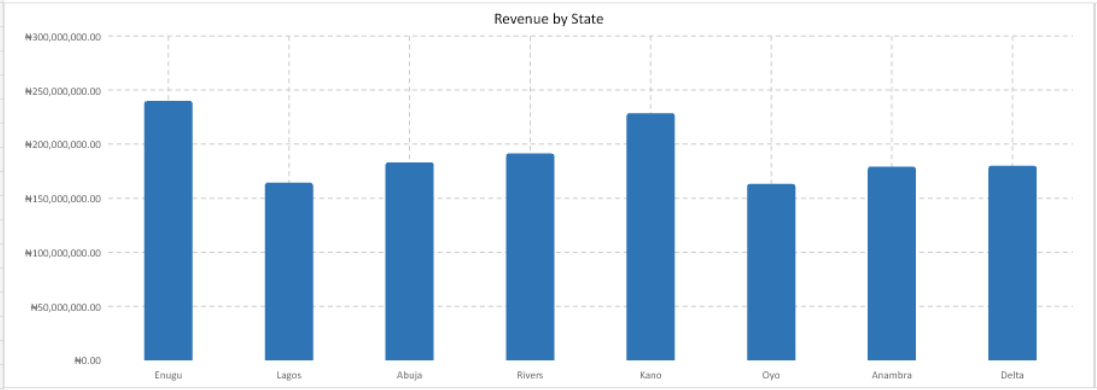

1. Monitor the leading diagnosis monthly and plan appropriate supplies and staff capacity.
2. Review high-bill records against service details and payment status before changing pricing.
3. Compare department revenue with patient volume and service mix before reallocating resources.

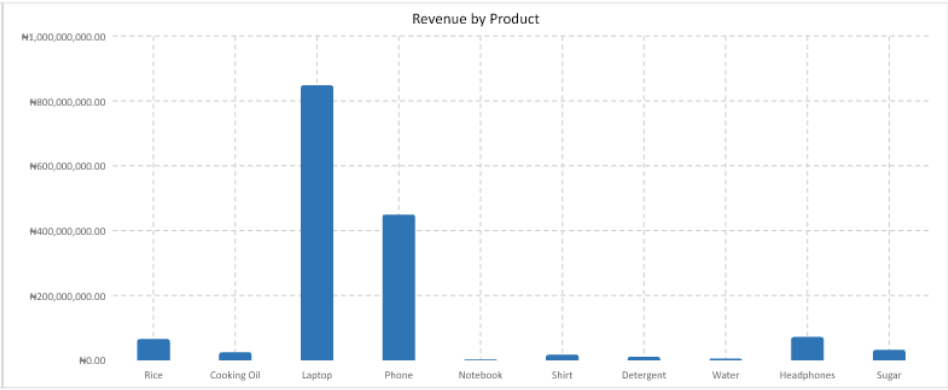

Nigerian Retail Sales Dashboard

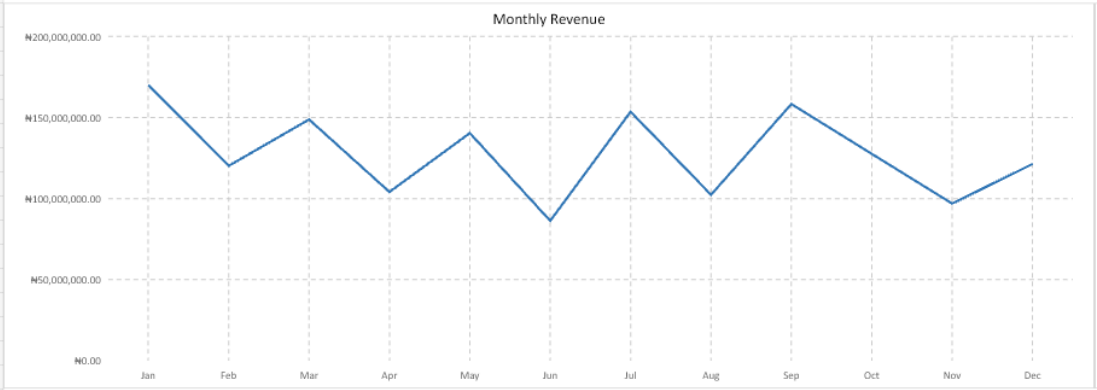

Use the dropdowns and date range to filter sales summaries. Practice data is fictional.

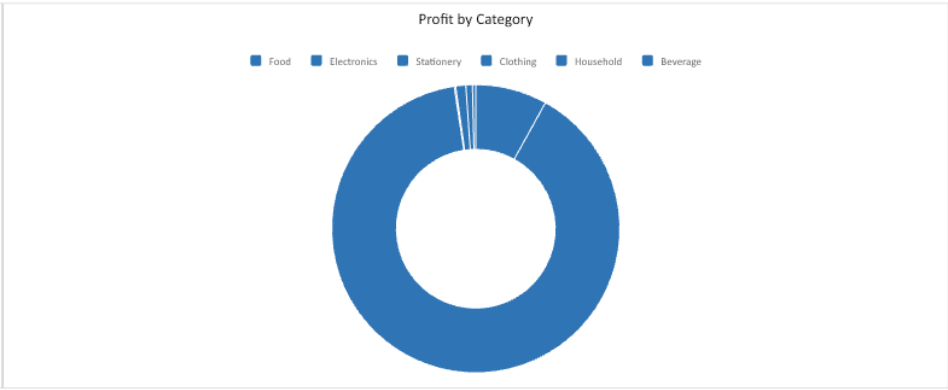

State: All | Product: All | Salesperson: All | From: 01-Jan-2025 To: 31-Dec-2025

Total Revenue	Total Profit	Orders	Average Sale	Top Product
₦1,529,866,028.00	₦428,362,487.84	2,000	₦764,933.01	Laptop

Business Insights and Recommendations

Insight	Current result	Meaning
Highest revenue state	Enugu	Use demand to guide state-level inventory planning.
Top product by revenue	Laptop	Check stock availability for the strongest product.
Best salesperson by rever	Adaeze Okafor	Review revenue and profit together when assessing performance.

Recommended actions

1. Prioritize replenishment for products with sustained revenue and confirm margin before ordering.
2. Investigate low-revenue states or branches before funding a new promotion.
3. Use both profit and revenue when reviewing salesperson results and bonus decisions.
